

OVERVIEW OF SPATIAL INTEGRATION
WITH EGNATIA MOTORWAY

Indicator of Potential Accessibility
(Based on the SASI model)

$$A_r = \sum_s W_s^a \exp(-\beta c_{rs})$$

W: activity factor (Urban population, GDP),
c: retention/resistance/opposition factor (time-distance)
r, s: origin and destination points

Shürmann C., Spiekermann K. and Wegener M. (1997) "Accessibility Indicators", Berichte aus dem Institute für Raumplanung 39, Universität Dortmund.
